The Washington of the state o

The buying reaction that so quickly followed the opening decline carried Sept. to Topic and as high as Topic was bid, July solling at Topic to Topic and Aug. at Tolic This was, in a measure, brought about by Liverpool railying and from its earlier decitne and closing and up for the day, and the cline and closing and up for the day, and the fact that Paris was ac better. Berin showed no change and Buda-Festh was only the higher. Domestic clearances were enly 259,000 bu. and the visible was increased 45,000 bu. There was a decline to 70 a can a raily to 70 in Sept. and another drop to 70 to 10 to 78%c, when the report of a spiendid cash demand came to the rescue, and this, being backed by the statement that outside mais were paying same over Sept. for No. 2 red, gave prices another whiri upwards, and the close for Sept. was close to the best price of the day, at the sellers. July and Aug. closed to and the higner, at reaching respectively. The advance in Sept. amounted to the for the day.

Corn was extremely strong this morning by imparting some of its strength to that grain. The outlish induced at the outlish educes of not, dry weather out in Kansas and Nebrasia, and the crop was suffering therein.

Drove three miles in western part of this courty yesterday and examined many wheat fields. Some show this stand and straw where dields are distingually and examined many wheat fields some show this stand and straw short, while many fields are fairly good. All have headed and are nilling nicely. Poorest fields indicate six business and best officen per acre. General reports show marked improvement wherever wheat was not killed by drought. Think the States will harvest 100,000,000 or more.

The St. Paul crop report says that along the Hantings and Dakota divisions the condition of wheat shows no improvement. Weather has been eniravorable and corn is looking poor. Along the Southern Minnesota division wheat is generally good, but damaxed in some sections. Corn is in excellent shape, and the prospects size for a large crop.

In their regular monthly returns to the Chlcago Trade Bullstin the European supply of breadstuffs afford and achoes was 64.63.69 but on July 1, 20 decrease of 2,600,000 but, and 2,600,000 but, and decrease of 2,600,000 but, and 2,600,000 but, and decrease of 2,600,000 but, and 2,600,00

SHEEP-A very small supply of sheep was on sale, and in general the quality was below the average, although one lead of good lambs was available. Trading was active so far as it went and prices were researcied as being a shade better than the close of hest week. More good matten sheep and lambs were wanted and several loads of good stock sheep would also find ready suit. All common and inferior lambs are very slow saie.

All bids having any alteration or erasure thereon will be rejected.
The Commissioner reserves the right to reject any and all bids.
FRED C. MEIER.
Commissioner of Supplies.

ORDINANCE.

An ordinance to change the name of West Chestnut street, between Jefferson avenue and Grand avenue. Be it ordained by the Municipal Assembly of the City of St. Louis, as follows: Section 1. All that portion of West Chestnut street lying between the west line of Jefferson avenue and the east line of Grand avenue is hereby changed to Lawton avenue.

mills closed down to-day. Nothing important doing in ginghama. Woolens and worsteds quiet and unaltered.

New York Market Gossip.

The fellowing synopsis of the gossip in regard to the leading festuares of the New York mericot was received by D. R. Francis, Bro. & Co.:

New York, July 2—London houses were disposed to even up contracts, and the trading today was mixed, arbitrage brokers selling illinois Central and buying Louisville, Atchisons, N. & W. and Northern Facific.

The purchases exceeded the sales by about 19,000 shares. Houses with Berlin connections sald that their cubics reported a decided improvement in that market since Friday. As an instance, Camadian Pacific was up 5, in Berlin and only 8 in London, and Northern Pacific securities moved in the same way, showing the degree of improvement to be much better in Berlin than in London or in this market.

There was a strong time to the market in the early trading, partly doe to the commission buying, and partly to buring for a combination of interests that apparently are working in opposition to the bearish element in the market.

Froft-taking sales caused the price of Suppressors that apparently are working in opposition to the bearish element in the market.

Froft-taking sales caused the price of Suppressors to the sales for both long and short ecount, induced by the publication of a statement asserting that the annual report of the company for the year ending June 3 last will show a surplus after all charges of only 252,000, against 1842,001 in the previous fiscal year.

The statement caused a good deal of uncastness among speculative holders. Burass & Kopfier were sellers of the stock early in the day and on the decline. A De Cordosa put out about 5,000 shares. R. H. Bresil was the heaviest buyer during the forenoon.

Bitols Central advanced sharply on buying by traders, induced by published statements that the stock will be put on a 6 per cent dividend on the decline, and the afternoon, when outside buying to-day was in anticipation of the closing

and now steady at a sight reaction from the best, bringing them to the level of New York, parity.

The following advices in regard to cotton were received:

New York, July 2.—Cutton in Liverpool to-day much better than expected and accompanied with ramers of private settlement there of bear sales in July delivery.

The demand here to-day was mostly for rear positions to cover sales. Late months only sympathetically affected owing to favorable weather conditions over the belt.

The bureau report of conditions at end of June will be made public to macrow, and should be below 30 owing to heavy rainfall during leaf month, since which time weather conditions have steadily improved, hence professional operators are distributed to built the new cop deliveries at present prices, in face of decreasing demand for goods and pour outlook for trade with Asia, and particularly China—at this writing 6:10 p.

WILL FNFORCE FIRE RILLES

Hoboken Disaster Rouses Insurance Men to Action.

New York, July 2.—Both the marine and fire insurance companies doing business in this city have decided not to make a formal investigation into the Hoboken fire, and the marine agents have also decided not to

advance rates, as it was recently intimated they would do.

This latter decision was arrived at to-day after a series of informal conferences between representatives of the marine companies. Efforts will be made, however, to bring about a strict adherence to the first regulations.
